

LIDLAW POWDER RUST SOUR

First Aid Procedures:

- Swallowing: Drink large amounts of water to dilute. Do not induce vomiting. Several glasses of milk or several ounces of milk of magnesia may be given for their soothing effect. Take victim to a medical facility immediately.
- Skin: Remove victim from the contaminated area and immediately wash the burned area with plenty of water for at least 15 minutes or until medical aid arrives. Remove contaminated clothing while washing continuously.
- Inhalation: Remove to fresh air. Keep victim lying down, quiet, and warm. Get medical attention immediately.
- Eyes: Irrigate for at least 15 minutes with copious quantities of water, keeping eyelids apart and away from eyeballs during irrigation.

Health studies have shown that health risks vary from person to person. As a precaution exposure to liquids, vapors, misty fumes or dust should be minimized.

VI. REACTIVITY DATA

- Hazardous Polymerization: Will not occur.
- Stability: Stable.
- Incompatibility: Avoid contact with acids.
- Hazardous Decomposition Products: Hydrogen gas from contact with some metals. May also liberate hydrogen fluoride or silicone tetrafluoride.

VII. SPILL OR LEAK PROCEDURES

Steps to be taken in case material is released or spilled:

Cleanup personnel must wear proper protective equipment. If material is spilled, steps should be taken to contain liquids and prevent discharges to streams or sewer systems. Spills or releases should be reported, if required, to the appropriate local, state, and federal regulatory agencies.

VIII. PROTECTION AND PRECAUTIONS

Respiratory Protection: NIOSH / MSHA approved respirator for particulates. Local exhaust and ventilation as needed.

Ventilation: General mechanical ventilation or local exhaust should be used to keep concentrations below TLV.

Protective Gloves: Neoprene gloves should be worn. Wash after use with soap and water.

Eye Protection: Safety glasses or goggles should be worn in dusty areas.

Other Protective Equipment: Protective clothing may be worn in dusty areas, but is generally not required.

Store in a cool, dry, and well ventilated area. Protect from humidity.

Incompatible materials. Do not puncture, drag, or slide containers. Do not smoke in any chemical handling or storage area.

IX. PRECAUTIONS OR OTHER COMMENTS

Precautions to be taken in handling and storing: Maintain good housekeeping. Avoid contact with eyes. Wash thoroughly after handling. Use with adequate ventilation.

The information and recommendations accumulated herein are to the best of Laidlaw's knowledge and belief, accurate and reliable as of the date issued. Laidlaw does not warrant or guarantee their accuracy or reliability, and shall not be liable for any loss or damage arising out of the use thereof.

HMIS and NFPA recommended ratings are based upon the criteria supplied by the developers of these systems together with Laidlaw's interpretation of the available data.
