

NORMANDY INJECTION DETERGENT

First Aid Procedures:

- Swallowing: Get medical attention immediately. Do not induce vomiting. If vomiting occurs, keep head lower than hips to prevent aspiration into the lungs.
- Skin: Wash affected area with soap and water. Remove and wash contaminated clothing.
- Inhalation: Remove victim to fresh air. Give oxygen if breathing is difficult. Perform artificial respiration if breathing has stopped. Get medical attention immediately.
- Eyes: Flush with water for at least 15 minutes. Seek medical attention if irritation persists.

Health studies have shown that health risks vary from person to person. As a precaution exposure to liquids, vapors, misty fumes or dust should be minimized.

---

**VI. REACTIVITY DATA**

- Hazardous Polymerization: Will not occur.
- Stability: Stable.
- Incompatibility: Strong oxidizing materials.
- Hazardous Decomposition Products: May release oxides of carbon when heated.

---

**VII. SPILL OR LEAK PROCEDURES**

Steps to be taken in case material is released or spilled:

- For small spills, absorb with rags and then wash in the drycleaning machine. For large spills, contain spill and transfer to container or drum for re-use or disposal.
- Check local, state, and federal regulations before disposing of product.

---

**VIII. PROTECTION AND PRECAUTIONS**

- Respiratory Protection: None normally needed.
- Ventilation: Normal room ventilation.
- Protective Gloves: Not normally required.
- Eye Protection: Chemical splash goggles are advised.
- Other Protective Equipment: None normally needed.

---

**IX. PRECAUTIONS OR OTHER COMMENTS**

Precautions to be taken in handling and storing: Maintain good housekeeping. Avoid contact with eyes. Wash thoroughly after handling. Use with adequate ventilation.
